PROFESSIONAL EXPERIENCE

Intellimed Healthcare Solution

Clinical Dietitian Consultant

November 2025 – Present

Mumbai

- Develop and implement individualized nutrition plans for psychiatric patients based on their clinical requirements, nutritional status, dietary patterns, and overall health considerations.
- Assess patients' nutritional needs and provide personalized dietary counseling to support improved dietary compliance and sustainable nutrition-related behavioral changes.
- Consider relevant medication and nutrition interactions while developing appropriate dietary recommendations.
- Apply principles of medical nutrition therapy, clinical assessment, personalized nutrition planning, and patient education in a healthcare setting.

Hugg Beverages

Dietitian – Gut Health Expert

October 2024 – August 2025

Mumbai

- Served as a Gut Health Expert, providing specialized nutrition guidance focused on gastrointestinal wellness, digestive health, dietary triggers, and condition-specific nutrition interventions.
- Investigated nutrition-related root causes and dietary triggers associated with gastrointestinal conditions including gastritis, GERD, IBS, ulcers, dysbiosis, and other GI concerns.
- Assessed individual dietary patterns and nutrition-related concerns to develop practical strategies for improving digestive health and gastrointestinal symptom management.
- Designed condition-specific nutrition protocols incorporating functional foods and prebiotics to support digestive wellness and individualized nutrition goals.
- Applied functional nutrition principles to connect dietary patterns with gastrointestinal symptoms and develop personalized dietary recommendations.
- Interpreted clinical laboratory reports and translated relevant findings into individualized nutrition recommendations and appropriate follow-up plans.
- Developed personalized nutrition guidance based on individual symptoms, dietary concerns, nutritional requirements, and response to interventions.
- Conducted structured follow-ups to monitor dietary adherence, symptom response, nutrition-related progress, and overall outcomes.
- Educated individuals on appropriate dietary approaches and sustainable nutrition practices for improved digestive health.
- Supported a patient/client-centered approach by adapting nutrition recommendations according to individual concerns, response, and adherence.

- Focused on sustainable dietary and lifestyle changes rather than generic nutrition recommendations.
- **Integrated gut health, functional nutrition, clinical assessment, dietary counseling, functional foods, prebiotics, laboratory interpretation, and follow-up monitoring into nutrition practice.**

Fitelo

Dietitian

August 2023 – January 2024

Remote

- Provided personalized nutrition counseling for clients with PCOS/PCOD, endometriosis, women's health concerns, weight-management requirements, and lifestyle-related nutrition needs.
- Developed individualized nutrition and lifestyle plans based on personal goals, dietary patterns, nutritional concerns, and health requirements.
- Counseled clients regarding practical dietary modifications and sustainable lifestyle interventions.
- Addressed women's health and weight-management nutrition requirements through individualized diet and lifestyle planning.

B.M. Birla Heart Research Centre

Dietetic Intern

July 2022 – January 2023

Kolkata

- Provided medical nutrition therapy for cardiac patients under the clinical nutrition care process.
- Supported nutrition care activities in ICU/CCU settings, contributing to the nutritional management of critically ill and cardiac patients.
- Calculated nutritional requirements for pre-operative and post-operative patients.
- Assisted in clinical nutrition assessment and development of appropriate dietary recommendations according to patient requirements.
- Gained practical exposure to hospital-based nutrition care, clinical dietary management, patient-specific nutrition requirements, and multidisciplinary healthcare communication.
